Summer sorbets with Flavour Pearls…

January 21, 2015

Every one loves a refreshing sorbet on a hot Summer's day…

Check out our simple but delicious twist on a bowl of sorbet. Add a few Flavour Pearls for a little glamour, a delicious flavour burst and some fun!

We went to our local store and bought 3 fruity sorbets – Apple, Mandarin and Strawberry and simply topped each scoop with Flavour Pearls. You got it, apple on apple, tangerine on mandarin and strawberry on strawberry. Now that's about as easy as it gets folks….

You could make your own sorbet – it's not tricky. Promise!
